Presentation Regina Tromp-Pruyn

I had in my childhood many dogs most mix breeds but visit every possible dog show, just to watch, with my dad.

Right after my marriage the first Sighthound came in to my life as a gift from my fresh husband - Afghan Khyber von dem Emelenberg. Khyber started it all, the love, the passion, the way of life you have with Afghans around you.

I wanted to know everything about the Afghan, and my studies resulted in my judge license for all Sighthounds which I have judged already more than 25 years.

Along the way 3 Saluki's joined Khyber, Multi Ch. Samoens Swift Current and his son who broke his leg in his youth and was never shown and Multi Ch. El Hor.

After Khyber passed away we really felt a life without Afghans was totally impossible, the search was opened for new Afghan. We did visit many breeders, looked at many puppies but one day there she was the most honest well constructed black girl : TinkerBell el Saghir. Who became the foundation bitch of our kennel : Popovs. Our first Afghan litter was born in 1997.

One day we fell head over heels in love with a baby Lhasa Apso at a show at the end of the day we took her home. Nowadays we share our lives with Afghan Hounds and 2 Lhasa Apso's.

I have judged all over Europe and Canada, and I love to judge - and I know the game very well from both sites!
